

SHAIKH AASIF

SENIOR BIM MODELER

Navi Mumbai, Maharashtra, India

8291834576

skaasif870@gmail.com

PROFESSIONAL SUMMARY

Senior BIM Modeler with practical experience in Revit-based Architectural and Structural BIM Modeling, 3D building modeling, structural elements, reinforcement/rebar modeling, Bar Bending Schedule (BBS), BOQ, quantity estimation and quantity takeoff. Experienced in Revit documentation, sheets, Families and project deliverables, with basic MEP modeling and working knowledge of AutoCAD and 3D Visualization. Started as a fresher Junior BIM Modeler in July 2024 and progressed to Senior BIM Modeler in August 2025 through expanded technical responsibilities across Architecture, Structure, BBS, BOQ and documentation.

CORE TECHNICAL SKILLS

Revit & BIM • Revit • BIM • 3D Modeling • Revit Families • Project Deliverables	Architecture • Architectural Modeling • 3D Building Models • Documentation • Sheets	Structure • Structural Modeling • Beams • Columns • Slabs • Foundations
Reinforcement • Reinforcement / Rebar Modeling • Bar Bending Schedule (BBS) • Structural detailing	Quantity • BOQ • Quantity Estimation • Quantity Takeoff	Other Tools • Basic MEP Modeling • AutoCAD • 3D Visualization • MS Office • Model Making

PROFESSIONAL EXPERIENCE

SENIOR BIM MODELER

August 2025 – Present | Computer Help | Navi Mumbai / Belapur

- Develop detailed Architectural and Structural BIM models in Revit, covering Beams, Columns, Slabs and Foundations and supporting accurate 3D project representation.
- Handle Revit documentation, sheets and Families, together with reinforcement/rebar modeling and Bar Bending Schedule (BBS) requirements for project deliverables.
- Prepare BOQ, quantity estimation and quantity takeoff, while supporting basic MEP modeling and coordination workflows.

JUNIOR BIM MODELER

July 2024 – July 2025 | Computer Help | Belapur / Navi Mumbai

- Joined Computer Help as a fresher Junior BIM Modeler in July 2024 and built practical experience in Revit-based Architectural and Structural BIM modeling.
- Worked on 3D modeling, structural elements, Revit documentation and sheets, Families, reinforcement/BBS and quantity-related tasks.
- Progressively expanded technical responsibilities across Architecture, Structure, BBS, BOQ and BIM documentation, leading to progression into the Senior BIM Modeler role.

PROFESSIONAL CAPABILITIES

Architectural BIM Modeling

Develop and maintain Revit-based architectural 3D building models with project documentation and sheets.

Structural BIM Modeling

Model structural components including Beams, Columns, Slabs and Foundations in Revit.

Reinforcement & BBS

Work with reinforcement/rebar modeling and Bar Bending Schedule (BBS) requirements.

BOQ & Quantity

Prepare BOQ, quantity estimation and quantity takeoff based on model/project information.

Revit Documentation

Support sheets, documentation, Families and project deliverables.

Basic MEP Modeling

Provide basic MEP modeling support within the broader BIM workflow.

Design & Visualization Tools

Use AutoCAD and 3D Visualization alongside Revit for modeling and design-related work.

CAREER PROGRESSION

JULY 2024	AUGUST 2025
JUNIOR BIM MODELER	SENIOR BIM MODELER
Started as a fresher at Computer Help.	Progressed after expanding technical responsibilities.

EDUCATION

Bunts Sangha's UKS Institute of Management Studies and Research

Bachelor of Business Administration (BBA), Business Administration and Management, General | June 2015 – June 2018

Marceline Junior College

HSC, Business/Commerce, General

Anjuman i Islam Kurla Boys High School

SSC

PROFESSIONAL PROFILE & KEYWORDS

Senior BIM Modeler | Revit | BIM | Architectural Modeling | Structural Modeling | 3D Modeling | Beams | Columns | Slabs | Foundations | Reinforcement | Rebar | BBS | BOQ | Quantity Estimation | Quantity Takeoff | Revit Families | Revit Documentation | Revit Sheets | Basic MEP Modeling | AutoCAD | 3D Visualization | MS Office

PROFESSIONAL LINKS

LinkedIn: www.linkedin.com/in/shaikh-aasif-4253a739b

Portfolio: aasif-shaikh7.github.io/BIM-Portfolio/

CAREER OBJECTIVE

To contribute BIM modeling, documentation and quantity-related skills to Architecture, Structure and construction projects, while continuing to develop technical expertise in Revit and multidisciplinary BIM workflows.
